

User Guide

Large Battery Box (CLA31)

1. Introduction

Thank you for purchasing one of the Nestbox Company's family of products. We hope this Large Battery Box will extend the use of your camera or nest box.

2. Setting Up Your Battery Box

The Large Battery Box comes complete with battery holder and hanging bracket.

Take the lid off the Battery Box. If the lid is screwed down, you will need a small screwdriver to take the 4 corner screws out.

Fit 4 size "D" batteries in the battery holder, observing the polarity as shown on the battery holder. If you find this awkward, you can take the battery holder out of the box.

The long power lead should be run out of the box through one of the small slots in the base of the box, and connected into a mating 6V socket on your camera or nest box. If you need a longer lead, extension cables are available from our range of accessories.

Fit the lid back onto the Battery Box and screw it down in each corner with the screws provided.

You can extend the life of the batteries by switching the batteries off when not required using the switch near the top of the Battery Box.

The Battery Box can be hung from a nail or screw using the hanging bracket, or simply placed on a flat surface. Take care to position it so that the cable exit holes are at the bottom, so that rain does not enter.

If you decide to use a mains supply with your Battery Box, bring the cable into the box through the 2nd slot in the base of the Battery Box, disconnect the battery holder, and connect the power supply unit to the PP3 connector in the Battery Box.

3. Specifications, Warranty etc

The specifications of the product described and the contents of this User Guide are subject to change without notice, as part of our continuous improvement process. The contents of this document may not be reproduced in whole or in part except for your personal use.

The Nestbox Company Limited warrants all its products against defects in materials and manufacture for 6 months from the date of purchase. If a defect is discovered, The Nestbox Company will repair or replace the product (at its option) free of charge, provided it is returned to the address in this User Guide at the customer's expense.

The Nestbox Company Limited is not able to accept any responsibility for any loss, damage, or loss of data suffered by any customer or third party as a result of use, misuse or malfunction of the product or this User Guide. In particular, whilst the product has been extensively tested, we are unable to warrant that is error free.

4. Care for the Environment

As you might expect, The Nestbox Company cares deeply about the Environment. We have adopted an Environmental Policy designed to demonstrate our commitment to operating our business in harmony with the natural and man made environments. If you wish to see the full policy, it is available to read on our web site.

Our products are developed to be economical with natural resources, both in manufacture and use. We comply with the relevant laws and regulations, including those relating to the Restriction of Hazardous Substances (known as RoHS) and Waste Electronic and Electrical Equipment (WEEE).

The wood used in our products comes from responsibly managed forests, as part of our commitment to the Forest Stewardship Council.

When you have finished using this product, please dispose of it responsibly.

Please separate it from other household waste or recycling, and use a local facility for waste electrical and electronic equipment

This User Guide is printed on recycled paper.
