

User Guide

*Solar Panel
(CL6A41)*

1. Introduction

Thank you for purchasing one of the Nestbox Company's family of products. We hope you will enjoy many years of use from this advanced equipment.

This Solar Panel is designed to be used with our Advanced Wireless Camera Nest Box, Advanced Wireless Camera Kit or Daylight Sensing Battery Box . Each of these products can take up to 2 Solar Panels.

2. Setting Up Your Solar Panel

As well as this User Guide, you should have the following parts:

Solar Panel

4 Reusable Cable Ties

The cable ties are used to fix the solar panel in place, passing them

through the mounting holes in the rear of the solar panel.

Connect the Solar Panel by plugging the connector at the end of its cable into one of the white connectors on the circuit board in the battery box

Carefully position the cable to enter the battery box via the cable slot.

Ensure that the battery box is equipped with rechargeable batteries, such as our Rechargeable High Capacity Battery Set (A40).

Fit the battery box relative to the nest box or camera, and position the solar panel so that it faces approximately towards the sun. Although the solar panel will charge the batteries in good daylight, the brighter the light, the more energy it will be able to collect.

3. Specifications, Warranty etc

The specifications of the product described and the contents of this User Guide are subject to change without notice, as part of our continuous improvement process.

Whilst every care has been taken in the preparation of this document, we realise that it may still be possible to improve it. If you find any errors, omissions or points which are not clear, please let us know by email at mail@nestbox.co.uk. We will endeavour to deal with the problem to your satisfaction, and learn from it for future versions.

The contents of this document may not be reproduced in whole or in part except for your personal use.

The Nestbox Company Limited warrants all its products against defects in materials and manufacture for 6 months from the date of purchase. If a defect is discovered, we will repair or replace the product (at our option) free of charge, provided it is returned to the address in this User Guide at the customer's expense.

We are not able to accept any responsibility for any loss, damage, or loss of data suffered by any customer or third party as a result of use, misuse or malfunction of the product or this User Guide. In particular, whilst the product has been extensively tested, we are unable to warrant that is error free.

4. Care for the Environment

The Nestbox Company cares deeply about the Environment. Our products are developed to be economical with natural resources, both in manufacture and use. We comply with the relevant laws and regulations, including those relating to the Restriction of Hazardous Substances (known as RoHS) and Waste Electronic and Electrical Equipment (WEEE).

When you have finished using this product, please dispose of it responsibly. We would suggest using your local household recycling and waste treatment facility, particularly for the electronic parts of the product. Certain of our products are marked with the following symbol:

This denotes that they require to be disposed of at end of their useful life by the local waste treatment facility. Please follow this instruction.
