# *Battery to Camera Extension Cable (CL6A52)*

# Battery to Camera Extension Cable

## Components

1 Cable  
1 Polythene Tube  
4 Cable Ties

## Use

This is a 2 core low voltage extension cable designed to extend the distance between the Battery or Battery Box and the camera or nest box

## Fitting

1. Fit one end of this cable to the mating connector on the Battery Box or Battery Snap.
2. Fit the other end of the cable to the mating connector on the camera. If possible, ensure that the joints formed by these connectors are kept inside the box or otherwise in the dry.
3. If you wish to fit one of the cable joints outside, disconnect the connectors, fit the Polythene Tube over the cable and fit the connectors together again. Position the Tube so that it covers the joint and using 2 Cable Ties at each end, tighten it at each end over the two cables to make the joint weather-proof.
4. Switch on the power (either mains or battery) and check that the system works as it should, ie as it did before you connected the extension cable.

## Specifications, Warranty etc

The specifications of the product described and the contents of this User Guide are subject to change without notice, as part of our continuous improvement process.

Whilst every care has been taken in the preparation of this document, we realise that it will still be possible to improve it. If you find any errors, omissions or points which are not clear, or have any suggestions for improving it, please let us know by email at [mail@nestbox.co.uk](mailto:mail@nestbox.co.uk). We will endeavour to deal with any problem to your satisfaction, and learn from it for future versions.

The contents of this document may not be reproduced in whole or in part except for your personal use.

The Nestbox Company Limited warrants all its products against defects in materials and manufacture for 6 months from the date of purchase. If a defect is discovered, The Nestbox Company will repair or replace the product (at its option) free of charge, provided it is returned to the address in this User Guide at the customer's expense.

The Nestbox Company Limited is not able to accept any responsibility for any loss, damage, or loss of data suffered by any customer or third party as a result of use, misuse or malfunction of the product or this User Guide. In particular, whilst the product has been extensively tested, we are unable to warrant that is error free.

If you have a further technical or user question relating to the product, please email it to us at [mail.nestbox.co.uk](mailto:mail.nestbox.co.uk).

### **Care for the Environment**

As you might expect, The Nestbox Company cares deeply about the Environment. We have adopted an Environmental Policy designed to demonstrate our commitment to operating our business in harmony with the natural and man made environments. If you wish to see the full policy, it is available to read on our web site.

Our products are developed to be economical with natural resources, both in manufacture and use. We comply with the relevant laws and regulations, including those relating to the Restriction of Hazardous Substances (known as RoHS) and Waste Electronic and Electrical Equipment (WEEE).

The wood used in our products comes from responsibly managed forests, as part of our commitment to the Forest Stewardship Council.

When you have finished using this product, please dispose of it responsibly.

Please separate it from other household waste or recycling, and use a local facility for waste electrical and electronic equipment

This User Guide is printed on recycled paper.
